**Resolution No. 2010-M-78**

**WHEREAS**, Senate Bill 550 became effective on June 4, 2010, which law directs the Florida Department of Health to create and administer a state-wide five-year cycle septic tank evaluation program; and

**WHEREAS**, as part of the septic tank evaluation program, citizens with on-site sewage disposal systems (hereafter "Septic Tanks"), regardless of location, will be forced to have their septic tanks inspected and periodically pumped out at a minimum of every five years with all costs of such inspections and pump-outs being the responsibility of the septic tank owner; and

**WHEREAS**, portions of Senate Bill 550 also calls for the replacement of entire septic tank systems, including drain fields if these septic tank systems and drain fields do not meet an established state-wide standard, regardless of whether the Septic Tanks in question function satisfactorily or not, and whether or not said septic tanks and drain fields pose a threat to the public health or safety; and

**WHEREAS**, the inspections and pump-outs of new or existing Septic Tanks or the replacement of septic tank systems would cost septic tank owners significant amounts of amount on an annual or periodic basis; and

**WHEREAS**, a significant number of private residents in Orange County utilize Septic Tanks; and

**WHEREAS**, the Florida Legislature has the means to reconsider the implementation of the septic tank provisions of Senate Bill 550; and

**WHEREAS**, it is the desire of this Board to support repeal of significant parts of Senate Bill 550, specifically including the universal mandate of septic tank inspections and pump-outs and replacement of septic tank fields when no threat to the public health, safety and welfare is evident.

**BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF
